OBJECTIVE

Software Engineer with **2+** years of professional experience as a MERN Stack Developer. Expertise in designing, developing, and scaling full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Proven ability in third-party API integration, requirement analysis, and delivering high-quality, scalable solutions through effective teamwork and project planning. Combines strong academic foundation with practical experience to build applications that exceed both technical requirements and user expectations.

EDUCATION

Bachelor of Science in Software Engineering	2020 – 2024
National Textile University, Faisalabad	
Intermediate (F.Sc Pre-Engineering)	2017 – 2019
KIPS College, Faisalabad	
Matriculation (Science)	2015 – 2017
Sacred Angel School and College, Aziz Fatima Road, Faisalabad	

Programming Languages

- JavaScript (Expert) 95%
- TypeScript (Advanced) 85%
- Python (Intermediate) 70%
- C/C++ (Intermediate) 65%

- C# (Intermediate)  60%
 - PHP (Intermediate)  50%
-

Web Development

- React.js, Next.js, Node.js, Express.js
 - HTML/CSS, SCSS, Tailwind CSS, Bootstrap
 - RESTful APIs, GraphQL (Basic)
-

Databases

- MongoDB (Advanced)  90%
 - SQL (MySQL, Oracle) (Intermediate)  70%
 - Firebase (Intermediate)  65%
-

Version Control & DevOps

- Git, GitHub
-

TOOLS & TECHNOLOGIES

- IDEs: VS Code, Visual Studio, SQL Management Studio
 - Design & Prototyping: Figma, Canva
 - Data Visualization: Power BI, Tableau
 - Modeling Tools: Star UML
 - Others: MATLAB, Postman
-

EXPERIENCE

MERN Stack Developer – Xavier Tech, Faisalabad

Oct 2024 – Present

Leading third-party API integrations, ensuring seamless connectivity and enhanced application functionality.

Managing front-end development tasks using React.js to create responsive, user-friendly interfaces.

Contributing to back-end development using Node.js and MongoDB to build robust, scalable applications.

Working across the complete MERN stack to deliver high-quality, end-to-end solutions.

Collaborating with team members to ensure efficient workflows and timely project deliveries.

Junior MERN Stack Developer – V3 Solution

Sep 2023 – Sep 2024

- **Designed and developed scalable, high-performance web applications** using the MERN stack, ensuring responsiveness and user-friendly interfaces.
 - **Implemented RESTful APIs and integrated third-party services**, enhancing application functionality and improving the overall user experience.
 - **Collaborated with cross-functional teams** including designers, product managers, and QA engineers, to deliver high-quality software solutions on time.
 - **Conducted code reviews, identified performance bottlenecks, and optimized application performance**, ensuring smooth operation and a seamless user experience.
 - **Actively participated in all phases of the software development lifecycle**, from requirement analysis and design to implementation, testing, and deployment.
 - **Demonstrated strong problem-solving skills and attention to detail** in troubleshooting and resolving technical issues during both development and production.
-

PROJECTS

Full-Stack Applications

YarnWise (Final Year Project)

- MERN stack inventory system for yarn stock management
- Styled with Chakra UI + Tailwind CSS
- Features: User roles, reporting, real-time updates

Saferides Ecosystem (USA Client)

- Suite of 3 interconnected MERN apps (**Customer, Driver, Admin**)
- Features: Ride management, driver-company-customer linking
- Tech: JWT auth, real-time notifications

Chaudhary Enterprises

- Next.js inventory system for agricultural products
- Features: RTK state management, i18n (English/Urdu)
- Products: Manure, wheat, maize, rice tracking

MUSK Inventory System

- Next.js cosmetic stock management (internal use)
- Tech: Tailwind CSS, RTK
- Features: Barcode scanning, expiry alerts

Frontend-Centric Projects

Perioxai

- React.js web app with Styled Components
- Implemented complex third-party APIs

YBRG

- React.js application with Material-UI
- Focus on responsive data visualization

ByTib

- React.js platform using Styled Components
- Integrated RESTful APIs with error handling

Uprinting

- MERN stack with Next.js frontend
- Styled with Tailwind CSS

Centrix Global

- Next.js static website for IT services
- Features: SEO optimization, contact analytics
