SOFTWARE ENGINEER — MERN STACK DEVELOPER

Professional Profile

Software Engineer with **3 years of professional experience** as a **MERN Stack Developer**, specializing in designing, developing, and scaling modern full-stack web applications. Experienced in building high-performance, user-centric solutions using **React.js, Next.js, Node.js, Express.js, and MongoDB**. Strong understanding of clean architecture, RESTful API development, database design, and performance optimization. Proven ability in third-party API integration, requirement analysis, and collaborative project execution. Demonstrated expertise in **delivery excellence, performance optimization, quality engineering & test automation, process & workflow transformation, data-driven decision making, and problem solving & code debugging** to deliver secure, scalable, and maintainable applications.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Context API

UI Libraries: Tailwind CSS, MUI, Ant Design, Chakra UI, DaisyUI

Backend: Node.js, Express.js, REST APIs, JWT, Socket.io

Databases: MongoDB, Mongoose, Firebase, MySQL

Tools: Git, GitHub, Postman, Vercel, Netlify, Render, VS Code, Cursor, Antigravity

Professional Experience

Level Up Marketplace — Faisalabad (Oct 2024 – Present)

MERN Stack Developer

- Spearheaded the integration of **100+ third-party app integrations** including Airbnb, Asana, Stripe, Jira, WooCommerce, and Trello, significantly expanding platform connectivity and functionality
- Engineered and delivered **15+ custom marketplace application pages** for services like Real Estate, Zillow, and Bytemine, enhancing user engagement and feature sets
- Mastered the **GoHighLevel (GHL) ecosystem**, implementing nearly **120+ API endpoints** to build deep, automated workflows for clients
- Developed a suite of **10+ reusable and customizable widgets** (Review Carousel, Store Locator, Content Grid, Icon Bullets, Icon Tabs) for the GHL platform, improving design consistency and developer efficiency
- Built **10+ custom utility tools** (Personalized Image Tool, QR Code Generator, Share Links, Deep Links, VCard Tool) with React frontends and Node.js/Express backends, driving user acquisition and retention
- Developing **levelupmarketplace.com**, a full-stack MERN application with customer portal

V3 Solution — Faisalabad (Sep 2023 – Nov 2024)

Junior MERN Stack Developer

- Designed and developed scalable, high-performance web applications using the MERN stack, ensuring responsiveness and user-friendly interfaces
- Implemented RESTful APIs and integrated third-party services, enhancing application functionality and improving overall user experience
- Collaborated with cross-functional teams including designers, product managers, and QA engineers to deliver high-quality software solutions on time
- Conducted code reviews, identified performance bottlenecks, and optimized application performance for smooth operation
- Actively participated in all phases of the software development lifecycle from requirement analysis to deployment

Education

Bachelor in Computer Software Engineering (BCSE) (2020 – 2024)

National Textile University, Faisalabad

CGPA: 3.25/4.0

Projects

Level Up Marketplace

- Full-stack MERN web application with customer portal currently in development
- *Tech:* React.js, Node.js, MongoDB, Tailwind CSS

Real Estate Integrations

- Custom integrations for Real Estate, Zillow, Bytemine, and Google Map Scraper applications with dynamic property data fetching and automated listing updates
- *Tech: React.js, Node.js, MongoDB, Tailwind CSS, Ant Design*

Custom Utility Tools

- Developed modular tools including Image Editor, QR Generator, Shareable Links, Deep Links, VCard Creator, Bulk Email Sender, and Form & Survey Analytics dashboard
- *Tech: React.js, Node.js, MongoDB, Tailwind CSS, Ant Design, MUI*

Chaudhary Enterprises

- Next.js inventory system for agricultural products with Redux Toolkit state management, bilingual support (English/Urdu), and transaction reporting
- *Tech: Next.js, Redux Toolkit, MongoDB, Tailwind CSS, DaisyUI*

MUSK Inventory System

- Cosmetic stock management system with barcode scanning functionality and automated expiry alerts for internal use
- *Tech: Next.js, Redux Toolkit, MongoDB, Tailwind CSS, Chakra UI*

Laptop King

- Full-featured laptop e-commerce store with advanced product filtering, shopping cart functionality, user reviews, and order tracking system
- *Tech: Next.js, MongoDB, Node.js, Tailwind CSS, Redux, MUI*

Centrix Global

- Next.js static website for IT services with SEO optimization and contact form analytics
- *Tech: Next.js, Tailwind CSS*

GT Western

- Automotive services portal featuring appointment booking, service tracking, customer management, and comprehensive service history
- *Tech: Next.js, MongoDB, Node.js, Tailwind CSS*

Saferides Ecosystem

- Suite of 3 interconnected MERN apps (Customer, Driver, Admin) featuring ride scheduling, JWT authentication, real-time notifications, and comprehensive driver-company-customer workflows
- *Tech: React.js, Node.js, MongoDB, Express, Socket.io, Tailwind CSS, MUI*

YarnWise (Final Year Project)

- MERN stack inventory system for yarn stock management with role-based access control (RBAC), analytics reporting, and real-time updates
- *Tech: React.js, Node.js, MongoDB, Express, Chakra UI, Tailwind CSS*

Certifications

Web & Mobile App Development – Saylani Mass IT Training Program (2023–2024)

Node.js & Express – IBM — Coursera [Certificate](#)

React.js Web App – Coursera [Certificate](#)

Git & GitHub – IBM — Coursera [Certificate](#)
